## Production in Shanghai, Service in your time zone

### About Us

Eos Plastics has manufactured products and parts for the automotive, home appliances, mining, aerospace, medical and many other **industrial and consumer markets**

These have varied from small to very large items molded of almost all type of plastics composites

We have parts in production for the oil and gas, automotive, health & fitness, office seating, marine, and airline industries

Our Customers appreciate our China prices, U.S. quality and our West Coast office hours. All serve their functions to provide our customers with worry free service and quality, as our long list of references will attest to

We can provide the **greatest savings on volumes over 5000 pieces per part** and **when multiple parts are consolidated into one shipment to the US**

- ▶ US based **local Sales Representative network support**
- ▶ **Western management inside China**
- ▶ **IP protection**
- ▶ In-house **engineering and process expertise**
- ▶ **In-house trained Inspectors** to ensure our customer's specifications and more importantly, expectations are met and exceeded.
- ▶ In-house Plastic Injection Molding Services
- ▶ **Quality Control** inspection in our on-site test labs
- ▶ **Outstanding Customer Satisfaction** - US based Sales and China based delivery teams are tightly integrated over advanced and secure collaboration platform to enable secure information sharing and quick project status updates

### Services
